

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

IMPORTANT NOTICE to PUBLISHERS, BOOKSELLERS AND OUR SUBSCRIBERS GENERALLY

IN order to increase the value of the **Publishers' Circular and Booksellers' Record** as a means of bringing Publishers' Announcements rapidly under the notice of the whole Bookselling Trade at Home and Abroad, and to increase its usefulness as a medium

**FOR ALL WHO WISH TO BUY OR SELL BOOKS, NEW OR OLD, OR
OBTAIN INFORMATION ABOUT THEM,**

We have decided to issue the **Publishers' Circular** **ONCE A WEEK** instead of twice a month, and have **Increased the Size of the Page** from 8vo. to 4to., thus allowing larger illustrations to be printed than has been the case hitherto.

In the **Editorial and New Book List Departments** no trouble or expense is spared to make them as complete as possible.

Our aim is to make this Journal **indispensable** to the Publisher and to the Bookseller, and, as we have now some thousands of Annual Subscribers, we confidently hope the British and Irish Publishing and Bookselling world will support us in our endeavour to place them on the same footing as their brethren in America, France, Germany, Holland, &c., by giving them a **Weekly Trade Organ**. (*See special advantages given to Annual Subscribers.*)

"Dr. Keith Johnston's "Royal Atlas," ever since its publication in 1861, has maintained its ground as the best English Atlas on a large scale extant. Of the new maps added to the Atlas we can speak in unqualified praise. The maps of the western half of the Dominion of Canada and of Mexico, by Mr. T. B. Johnston, are creditable specimens of cartography, and need not fear comparison with any work produced elsewhere. Each map is provided with a separate index, and altogether the Atlas is one deserving the support and confidence of the public."—THE ATHENÆUM.

THE CERES LETTER & CARD FILES

Proprietors: T. BOWATER VERNON, Inventor and Patentee, and WM. DAWSON & SONS, Ltd.

A REVOLUTION IN KEEPING LETTERS AND PAPERS, AND FOR INDEXING.

The System is worked in Boxes, Cabinets, Writing Tables, &c. The order of arrangement is usually alphabetical, but, if preferred, blank Guides can be supplied for grouping matters under special heads.

LETTER BOX FILE.

A single receptacle for all current Letters, Bills, and Papers, instead of the old plan of separate boxes or drawers for Papers of various kinds. The Box can be left **securely locked**, and Letters which come during absence can be 'posted' through the slit into the empty end and sorted at leisure.

PRICES.

No. 1 size, in **Wood**, covered Red Cloth, with catch, 17/6; with Yale Lock, 30/-; solid **Walnut** (Yale Lock), 45/-; solid **Mahogany** (Yale Lock), 63/-.

A smaller size, No. 2, is stocked for use where table space is limited, and for Press Cuttings, Notes, &c. Capacity, 1,000 Letters, 8vo., i.e. Note Size. With Catch, 17/6; with Yale Lock, 22/-.

In **Japanned Tin**—No. 1 for Quarto Letters, 20 in. long (Yale Lock), 54/6; No. 2, Foolscap, 24 in. long, with special springless Yale Lock, 75/6.

These Tin Boxes are specially designed for travelling purposes. The Papers are secured by a strap (always in position) in a moment of time, and the Box can then be turned about without disturbing the contents, and whilst en route Papers can be passed through the Letter-slit without stopping to unlock the Box.

No. 1 Letter File, the most useful size, 20 in. by 12 in. by 9½ in. high. Capacity, 2,000 Quarto Papers.

SIR JAMES CRICHTON BROWNE, M.D., F.R.S.

'A time-economiser and protection against many of the minor worries that are incidental to the conduct of a large correspondence. It is a simple and ingenious invention, and will, I believe, be generally adopted by those who value sound methods and such mechanical aids to them as are practicable.'

THE CERES CARD FILES.

The Ceres Card Files in Cabinets for Library Catalogues, and in Boxes and Trays for other purposes, constitute the latest development of the Card System, being in advance of anything of the kind in this country or the United States.

Cards may be used in place of alphabetical and classified Books (which must of necessity fill up unequally, involving frequent re-arrangement and re-writing into new books), for Indexes and Statistics of every kind, and for any List of Names or Subjects in a growing or varying condition.

For prices of Cabinets, Boxes, Trays, &c., and Cards of all kinds (plain or printed), Division Guides, &c., see Catalogue.

From H. H. BEMROSE, Esq.

(Messrs. BEMROSE & SONS, Ltd., Derby.)

'I am using the Card Box daily for a literary purpose, and I find it simply invaluable. As it lies on the table entries are made at the moment under their proper heads, and the facility of reference is such as no other mode of indexing I am aware of can touch.'

Enlarged View of Portion of Card File.

The Files are eminently suited for Literary and Scientific use.

The Letter and Card Files, in large variety, may be seen at the Show-rooms at

MESSRS. WM. DAWSON & SONS, LIMITED,
CANNON HOUSE, BREAM'S BUILDINGS, CHANCERY LANE.
